

# Affiliate Instructions

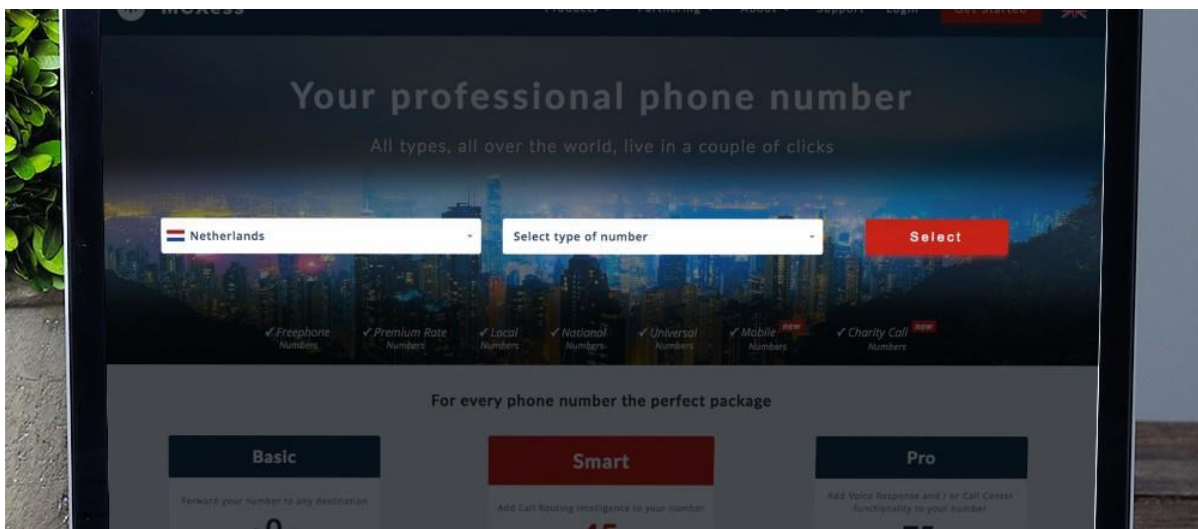

V1.1 December 2020

## Widget

Your visitors will be able to select the country they would like to order a number in and the number type.

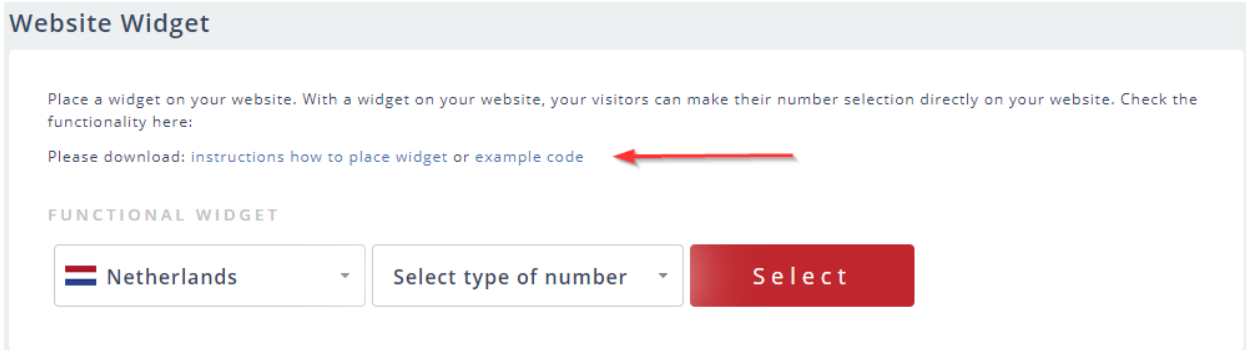

When choosing the number type, a short but clear explanation of the available number types is included in the widget.

It is possible to place the widget anywhere on your website and adjust the CSS (look and feel) according to your wishes.

Widget Example

1. We have prepared the code to be placed on your website. Download the code from the affiliate portal in your account:

2. Open the code in your editor and copy it to respective the header and the body of every page where you would like to show the Widget. The Widget can be placed on multiple pages.

3. Changes to the style can be made with the following elements in CSS:

#mcx_numberWidgetContainer	Widget
#mcx_orderId	Container
#mcx_countryId	Selection Button
#mcx_prefixId	First dropdown with Country Second dropdown with Prefix

#mcx\_numberWidgetContaine

#mcx\_countryId

#mcx\_prefixId

#mcx\_orderId
